Guideline to make the week 1 deliverables-

As a Project Manager by initiating your masterclass project. You're expected to submit a single, well-structured document that includes two key sections:

- Project Charter
- Project Scope & Resource Plan

You will submit ONE file that contains both of the following these two components will form the foundation of your entire 3 month project:

Section 1: Project Charter – Introducing Your Masterclass (two weeks)

This is a formal document that officially starts your project and outlines the "big picture." Use clear, concise language and structure it professionally.

Your Project Charter should include:

- **Project Title & Description** – Give your masterclass a name and briefly describe what it's about.
- **Purpose/Objective** – What are you trying to achieve with this masterclass?
- **Scope Statement** – What is included in your project? (High-level scope)
- **Key Stakeholders** – Who are the people or groups involved (e.g. speaker, audience, your role)?
- **Milestones & Timeline** – List key dates (e.g. when planning starts, promotion goes live, event date).
- **Assumptions & Constraints** – Any assumptions you're working with (e.g. speaker availability), and constraints like time, budget, or tools.
- **Approval & Sign-off** – Simulate a sign-off section showing that you and your (imaginary or real) supervisor approve this plan.

Section 2: Project Scope & Resource Plan

This part dives deeper into what you'll be delivering and what you need to make it happen. Include the following:

- **Detailed Scope of Work** – What are the specific deliverables of your project? For example, "1-hour live webinar with downloadable workbook."
- **Out-of-Scope Items** – Clarify what won't be included (e.g. no paid follow-up course, no in-person attendance).
- **Resource Planning** – List all the people, tools, and time you'll need.

Break your resources into three parts:

Human Resources (e.g. you, guest speaker, designer)
Technical Resources (e.g. Zoom, Canva, email tool)
Time Estimate (rough idea of how many hours major tasks will take)

[Note: Your document must have the above items]

Demo project report template given by excelerate which you may follow:

PROJECT CHARTER	
Project Title	
Project Description	
Project Purpose/Objective	
Scope Statement	

Stakeholder List		
Name	**Organization**	**Role/ Responsibilities**

Major Milestones & Timeline	
Description	Target Date

Assumptions & Constraints	
Assumptions	Constraints

Approval & Sign-off		
Name/Role	Signature	Date
